2014 CONFERENCE OVERVIEW

Rail & Public Transport Safety & Security

March, London, UK

Safeguarding passengers and assets is of paramount importance to all public transport stakeholders. Aside from the devastating consequences that we know only too well can arise from security breaches; delay, disruption and the perception of unsafe networks cause flight from rail and public transport networks and consequently have a negative impact on the bottom line.

The programme is built to address all of the safety and security issues specifically of interest to you, and showcases the efficient delivery of Best in Class safety and security projects. Whether you need to remain aware of cutting edge safety & security advances; learn how to elevate security to the board room or examine specific safety issues and how best to address them.

Scandinavian Rail Development

April, Oslo, Norway

Scandinavian Rail Development brings together the key rail industry stakeholders from across Sweden, Denmark, Norway and Finland, to share valuable insights into the ongoing development of the region's rail networks. Whether you are looking to uncover investment and development opportunities, or you are an operator to whom dialogue with transport authorities is critical to your business, Scandinavian Rail Development is the must attend Nordic rail conference of 2014.

www.scandinavianraildevelopment.com

European Bus Operators' Forum

June, Manchester, UK

Benefit from the knowledge of senior leading industry experts coming together to share their visions, ideas and new technologies, and to discuss the most pressing issues currently facing the European bus sector. Providing an unrivalled forum for collaboration and for the exchanging of information this is a must attend date for your diary

www.europeanbusoperatorsforum.com

Austrian Rail Development

June, Vienna, Austria

A conference that will bring together operators leading figures to debate a wide range of themes. The Austrian Rail Development 2014 conference has been designed to bring together all stakeholders in Austria's railway marketplace to continue to shape the future of Austria's network. Delegates attending will listen, debate and discuss network vision and investment plans.

www.austrianraildevelopment.com

South East Europe Rail Development

October, Belgrade, Serbia

The South East Europe Rail and Public Transport Development conference brings together all of the railway undertakings from across South East Europe to discuss the on-going development of the region's rail networks.

Join us in Belgarde in 2014 to meet the key stakeholders from Serbia, Croatia, Slovenia, Montenegro, Bosnia and Herzegovina, FYR Macedonia and beyond.

www.southeasteuroperailconference.com

Real-Time Passenger Information

November, London, UK

Eurotransport magazines 3rd annual Real-Time Passenger Information Conference will bring together Local Authorities, Passenger Transport Executives, Transport Operators, RTPI consultants and systems suppliers from across the sector to discuss and debate current revolution in information; best practice in Real-Time Passenger Information implementation, achieving optimum ROI and cutting edge examples of 3rd generation RTPI and ticketing systems.

www.rtpiconference.com

Airport Security & IT

September, Istanbul, Turkey

The world's airports continue to develop and improve their security, efficiency and customer processing. At the heart of this progress lies technology. It is no surprise that IT is deemed the single greatest focus to make the most impact on airport environments in the coming years.

Airport Information Technology (AITS) 2014, an International Airport Review conference, will provide a dedicated IT focus for international and regional airports. AIT 2014 will bring together CIOs, IT Directors, Heads of Operations and Security from global airport operators to share their visions for the future and to discuss the investments, issues and opportunities facing this sector.

BE HEARD

Why Speak?

Whether a keynote address, participating in a panel discussion or hosting a workshop, speaking at a Russell Publishing conference offers a unique platform to showcase your company, your knowledge and your innovations.

Russell Publishing Conferences provide you with an invaluable opportunity to showcase your organisation's expertise in front of an audience of your current and potential clients.

Demonstrate thought leadership in front of an audience of your prospects

Align your organisation with the leading names in the industry

Showcase your expertise and track record to potential clients

Reassure your current clients that they are working with a market leading organisation

Present a case study of one of your existing projects, in order to illustrate your capabilities to new clients

Elevate your status at the conference by joining a panel of industry experts in debating the critical issues of the moment

Some of the opportunities for exposure include:

• Morning Speaker Presentation	• Sponsor a Focused e-newsletter
• Afternoon Speaker Presentation	• Solo Content Email
• Panel Speaking Positions	• Webinars
• Host a Workshop	• Networking Drinks Reception
• Exhibition Space	• Pillar Wraps
• Host a Champagne Round Table	• Delegate Welcome Bags
• Client Entertainment	• Seat Drop of Your Company's Information
• Product Demonstration	• Advert in the Delegate Brochure
• Technical Site Visit	• Branding of the Delegate Badge Lanyards

Contra opportunities are available for media and membership associations.

A eurotransport CONFERENCE

RAIL & PUBLIC TRANSPORT
SAFETY & SECURITY
2014

Supported by

Transport for London | Network Rail | northern | UIP | Passengerfocus | M | ProRail | UIC | SNCF

6th March, London
www.eurotransportmagazine.com/rptss

For the ninth year running, Rail & Public transport Safety & Security brings together Heads of Security and Safety from rail and public transport operators, infrastructure managers, transport authorities and security authorities, to present best practice in safeguarding passengers, assets and revenue. Ensuring that transport networks remain hostile to criminals and to terrorists, and addressing the relative benefits of technology or a physical staff presence in deterring and addressing crime.

> *The idea of a conference dedicated just to security issues facing the transit industry was long overdue. The importance of the threats facing the infrastructure combined with the economic challenges most agencies are facing made this a timely and important forum to discuss ways to overcome them. The attendees and the material covered were impressive, and I truly believe this was a worthwhile business investment for our company and our clients.*

A **railway review** CONFERENCE

Austrian Rail
Development

11th June, Vienna
www.austrianraildevelopment.com

Austrian Rail Development 2014 is the latest in our enormously successful *Rail Development* series, which focuses on showcasing key rail networks and presenting investment and development plans for those networks. Austrian Rail Development is hosted by ÖBB, and brings together key Austrian railway stakeholders and freight and passenger operators to present new lines, upgrades, ERTMS projects and rolling stock investments. The conference will showcase this world class rail network and focus on interoperability with the neighbouring railways.

AN airport review CONFERENCE

Airport Security
& IT

Hosted by:

TAV
Airports
Live, Smile and Fly!

September, Istanbul
www.airportinformationtechnology.com

The world's airports continue to develop and improve their security, efficiency and customer processing. At the heart of this progress lies technology. It is no surprise that IT is deemed the single greatest focus to make the most impact on airport environments in the coming years.

The role of technology in balancing these sometimes contrasting needs is paramount. Gone are the days when the IT division dealt purely with technical issues. IT operations cannot and will not stand alone if overall airport challenges are to be addressed.

Great congress. Very wide range of security items discussed. That makes it unique.
Brussels Airport
Great and focussed opportunity to hear from Airport Security teams.
